The rich history of Anchor Brewing can be traced all the way back to the Gold Rush, when German brewer Gottlieb Brekle arrived in San Francisco with his wife Marie and infant son Frederick. Brekle applied for citizenship in 1854, and his brewing and business acumen would soon lead to his ownership of a little San Francisco brewery, which would one day become known as Anchor. The brewery inherited a long tradition of brewing what had come to be known as steam beer, one of the quaint old nicknames for beer brewed along the West Coast under primitive conditions and without ice. Today "steam" is a trademark of Anchor Brewing.

LIBERTY ALE®
American Pale Ale 5.9% abv 47 ibu
This beer was first introduced in 1975 to commemorate the bicentennial of the famous ride of Paul Revere. Carbonation is produced by an entirely natural process called "bunging," which produces champagne-like bubbles.

OLD FOGHORN®
Barleywine 8–10% abv
This beer is based on traditional English barleywines. It has a pleasant hop bitterness, due to the large quantity of hops used during brewing, and a unique hop aroma due to the dry-hopping and aging.

ANCHOR CHRISTMAS ALE

Every year since 1975 the brewers at Anchor have brewed a distinctive and unique “Christmas Ale,” which is available from early November to mid-January. The Ale’s recipe is different every year—as is the tree on the label—but the intent with which we offer it remains the same: joy and celebration of the newness of life. Since ancient times, trees have symbolized the winter solstice when the earth, with its seasons, appears born anew.

Brewed in small 300 gallon batches, our brewers lovingly craft this masterpiece just once a year. Made with the finest malts, hops, fresh mountain water and yeast, over 18 separate ingredients lend their unique character to this beer. At first taste there is a large presence of dark chocolate, espresso and warmth from the alcohol of the beer. Oak barrel character then comes into play with hints of vanilla and coconut, followed by mild bitterness from the hops, and then a nice long lingering finish with hints of tobacco, dark dried fruit and more chocolate.

Back in the 1980s, our founder Richard Squire was your typical ski bum – with one significant difference. He had a knack for making extraordinary home brews. For years, only his closest friends were able to enjoy his creations, but it didn’t take long for Richard to realize that his talents needed to be shared with the world. In February, 1990 that dream became reality when Richard opened the original Breckenridge Brewery & Pub in the town of Breckenridge, Colorado. Richard’s ski bum days were over, and so were the days of bland beer for the folks in Colorado’s ski country.

Crazy Mountain Brewing Co.

Crazy Mountain Brewery was started by Kevin and Marisa Selvyin January of 2010, as the first production brewery in the Vail Valley of Colorado. It was their dream to follow their passion of skiing Vail's back bowls, hiking in the beauty of the Rocky Mountains or white water rafting on the Colorado River, while making the beer they wanted to make. We don't brew true to style. We like to brew with our unique take on each style and add in something that makes our beer a little different, which makes it stand out and become memorable to the consumer. We don't brew to win industry awards and medals – we want to differentiate from the crowd and be unique. Our beers will never taste like all of the other craft beers on the market.

American Sour Ale w/Pineapple 7% abv
A play on words which translates to “the pineapple of my eye,” this beer looks to capture Latin American ingenuity and tropical romanticism. Aleman will feature a small selection of year-round beers and a flexible rotation of seasonal, event-driven, and limited releases. Aleman hopes to align its brand with a return of the Renaissance man, a return to a time where people took pride in being well-rounded and learned by doing, where hand-made goods were produced and sold by local craftsmen. Aleman beers will showcase a similarly broad spectrum of tastes and interests, with recipes heavily rooted in traditional styles with a focus on American interpretations.

**DAYMAN**

**India Pale Ale**

7.2% abv 40 ibu

Before there was Aleman, there was DayMan. A homebrew in the purest sense, we tried a lackluster coffee beer and decided we could make it better. We lent our small-scale ingenuity to the craft beer pioneers at Stone and Two Brothers and collectively turned out an IPA worthy of being the first thing you drink in the morning and the last thing you drink at night. With cold brewed coffee, bright Citra hops, and an abundance of collaborative spirit.

Our Mother used to tell us that big things often come in small packages. We bring that adage to life with our latest seasonal offering, LittleMan. Light and flavorful with just enough wheat for body and a healthy dose of Crystal and Willamette for a big hop bite.
SOULMAN
Brown Ale 7.8% abv 55 ibu
Coming into this world shot from a cannon full of Superbad, SoulMan was born from the lavish half of an experimental partigyle brew. In the same way that the words aren’t nearly as important as how you sing them, hand-made salted caramel adds the boogie and the sexual healing to our take on the classic Brown Ale. Deeply caramelized sugar provides roasted notes that blend in nicely with a rich malty base. Paired with a mild, underlying hop character for a long, dry finish.

STRONGMAN
Brown Ale 8.1% abv
Maple Sugar meets Toasted Caraway Seeds meets rippling biceps. Our American Strong Ale drinks like an arm wrestling match between a great malty Sasquatch and a majestic hoppy Centaur. Never lift without a spotter.

THE MAN
India Pale Ale 6.8% abv 40 ibu
The Man is not an oppressive governmental regime. Nor is it that movie with Jules Winnfield and the dad from American Pie. It's not even the hit single from recording mega-star Aloe Blacc. The Man is simply the boss. It's DayMan without the coffee. It's our base IPA and a beer we plan to bastardize in every way imaginable. In its most basic form, The Man will contrast a reliable malt bill with a rotating cast of hop characters based on whatever hops are fresh and making us particularly horny. Whether it be a single-hop variety or a balanced blend, The Man will always deliver on its crisp, clean, bitter promise.
Nothing is as exhilarating as exploration. And nothing as satisfying as discovery. It’s as much about the journey as the destination. Our curiosity always takes us someplace unexpected and exciting. Kölsch  4.9% abv  24 ibu
Refreshing, crisp finish, totally sessionable. Everything you’d expect from a traditional Kölsch-style beer. PUFFING BILLY
American Brown Ale  6.9% abv  35 ibu
We love Browns. And you should too! Roasty malts and chocolatey flavors — what’s not to love? Ours is finished with cacao nibs to add another nuanced layer of bitterness and chocolate aroma to the already complex interplay of this well-balanced ale.

VILLAINOUS
India Pale Ale  6.3% abv  70 ibu
It’s the most diabolical of plans. Instead of a single yeast strain, Villainous employs four; two British and two West Coast, to make one Super-IPA strain. This imparts subtle flavors like apple, clover honey and pear. A blend of the most coveted hops adds floral and fruity flavors in perfect compliment. A nefarious pleasure to be sure.
MR. MARMALADE
Imperial IPA 8.8% abv 88 ibu

SILK ROAD
American Pale Ale w/Galangal 5.9% abv 48 ibu
What’s galangal? It’s a root. It’s a lot like ginger, but a bit more flowery and intense. It makes this classic APA like nothing you’ve had before. Packed with five American hop varietals, it’s the perfect balance of flowery-spicy-citrusy, with orange and tropical-fruit flavors playing off a sturdy malt backbone. AVAILABLE FALL.

DARK ENERGY
English Mild Ale 3.6% abv 16 ibu

VERA
Cream Ale 5.2% abv 13.5 ibu
Pistachios (species P. vera) have been used in culinary applications for thousands of years. For a much shorter period, innovative brewers have employed them to add a luscious character to many styles of beer. Our delicate cream with Caravienne malt adds a touch more body than some others. At just over five percent, this is a session beer you’ll want to get crackin’ with.

AROUND THE BEND MAUI GOLD

BLACK FOREST
Imperial Stout     9% abv 48 ibu
Like an old-world fairytale, everything about this Imperial Stout is dark. Dark malts. Dark chocolate. Dark cherry. This is balanced by Ghirardelli dark chocolate and dark, sweet cherries for a very happy ending indeed.

Maplewood Brewery & Distillery was started by two home brewers and distillers whose hobbies spiraled into a passion. They aim to bridge the gap between the craft beer and spirits worlds. The name Maplewood was chosen in honor the former village of Maplewood, where the brewery/distillery is located. The village of Maplewood was one of the outlying towns that survived the Great Chicago Fire, and its residents, largely immigrant builders, aided in rebuilding the city. The Maplewood area was eventually annexed by Chicago in 1889 to form the Logan Square neighborhood, which we think is pretty great.

Beer is woven into so many cultural traditions and events that we love to enjoy with family and friends. Neither of us really grew up with any "cultural traditions" beyond those marked with a red hat and beard, bunny ears, or a carved squash. So in many ways, we have adopted these beer-related cultural experiences as our traditions. They are now becoming a part of who we are – our lifestyle – our American heritage. Today, the doors are finally open and we invite you in to share our passion for beer – and find a place in your life for new traditions with Scorched Earth Brewing.

It’s taken almost one hundred years, but Evanston can once again call itself home to a Temperance movement, but this time there’s beer. In fact, this one is all about the beer. Aside from that tiny detail, Temperance has always been about making life better in ways big and small. We think that’s a worthy goal, and one that only comes about by being open to the possibilities. It’s something we think about with the beers we brew and the things we do. (And when you join us, you will too.) Welcome to a new Temperance movement.

Ten Ninety

Craft beer transforms four simple ingredients into something great. At Ten Ninety, we further this transformation to produce refreshing yet complex and challenging beers from unique ingredients and processes. As we reach beyond traditional combinations of water, malted grain, hops, and yeast, we are unapologetically proud to say that we brew extraordinary small batch beers meant to be thoughtfully enjoyed. Ten Ninety or "1.090" is the approximate measurement of Original Gravity for each of our flagship beers. A higher original gravity means our beers are more likely to complement a fine dining experience. We find inspiration from flavor profiles and cultures the world over. Specific foods have inspired many of our beers and will drive our innovation in the future. We start with food and create a beer to pair with that food. It is subtle differences like these that differentiate us from the rest. Ten Ninety is Craft Beer Elevated.

I am Berghoff Beer. I am a son of the Heartland, and always will be. I quenched the mighty thirst of those who worked the earth and those who rolled the steel and set the rivets, making skyscrapers rise from the prairie. I am rooted in an era that celebrated the boundless opportunities of the American dream, the shadow of which still shapes or lives. I am a promise of better times. I am enduring. Others have come and gone, but I have always held true to my root, let fashion be damned. I am a survivor. I am the honest taste of pure malt and the rough perfume of the hop, and never wanted to be any more or less. I am the real deal.
